Keep Residents on Watch. NORFOLK, Va., December 9.—A strong northeast gale caused unusually high tides at Norfolk, Ocean View and Willoughby Beach last night. The water at Ocean View was within a few feet of the porches of a number of cottages and inmates kept an all-night vigil, ready to leave if conditions became dangerous.

Some parts of Norfolk were without

illumination, when the storm put number of electric lights out of commis

Bureau of Standards' Report Before Congress Brings Officials' Estimate.

Officials of the Wahington Gas light Company estimated roughly today that the company would receive about \$60,000 more in revenue a year if Congress adopted the report of the 216,871 SPECIMENS bureau of standards, which recommends an increase of approximately 45 cents per thousand cubic feet in the government's gas rate. The gov-ernment now pays 70 cents per thou-sand. It was pointed out, however, that

It was pointed out, however, that the recommendation of the bureau of standards, if concurred in by Congress, could not result in a reduction to the householders of the District before July, when the new appropriation bills become effective.

The present rate of \$1.32 per thousand cubic feet to households continues until March 18 next. If before that date Congress has enacted appropriation bills with a provision for the new government gas rate, the Institution to Africa, Australia, the the new government gas rate, French Congo, the Canadian Rockies, Public Utilities Commission prob will consider what effect that should the far east, Haiti, Jamaica, Santo have on the private consumer's rate.

Howard Reeside, president of the
gas company, expressed the belief
that, even should Congress raise the Domingo and British Gulana received special mention at the annual meeting of the board of regents of the insti-tution held this morning in the Smith-tution held this morning in the Smith-private consumers' rate should be reduced as long as the present cost of operation continues. He based his belief on the statement that the

6 per cent return on fair value now allowed the gas company is inade-Greene and Elston; George Gray, John B. Henderson, Henry White, Robert S. Brookings and Dr. Charles D. Walcott, allowed the gas company is inade-quate.

In its last gas decision the Pub-lic Utilities Commission estimated that the rate to the householders could be reduced by 4 cents per thou-sand if the United States and Dis-trict government departments paid the same rates as private concerns using similar amounts of cas. The using similar amounts of gas. The bureau of standards, however, recommended that the government be fur-nished gas at 10 cents less per the

sand cubic feet.
Furthermore, the estimated reduction of the Utilities Commission of 4 cents per thousand to the private con-sumers was based on the supposition that the District also would pay the private wholesale rate for gas used pays approximately 30 cents per thou

An investigator of the bureau of standards stated today that the gas company is losing about \$133,000 a mated that about 3 cents could be taken off the rate per thousand feet to private consumers and the United States if the District paid the cost of the gas furnished street lamps.
